for Pre-Existing  
Conditions

Many people believe that some trips are too small for travel insurance. The fact is, EVERY trip is a trip worth protecting. Our Travel Insurance plan is perfect for travelers whose trips fall outside the bounds of conventional travel insurance. The majority of travel policies only cover international travel and do not always include trip cancellation or protection. This plan can cover trips within the USA or International Trips.

ExactCare helps you protect the investment you have already made in your vacation or trip. The prices are very reasonable and affordable. The ExactCare plan offers excellent benefits, as well as quick and easy claim filing.

**A vacation is an investment.  
Protecting that investment is just as important as your itinerary!**

### ***"I have travel insurance through my credit card."***

Only some credit cards offer travel protection, and their levels of protection vary greatly. In many cases, the credit card requires you to make all travel purchases using that card in order for those purchases to be protected. Also, most credit cards don't cover medical emergencies that occur while you're traveling – and that includes any emergency medical transportation and evacuation a covered traveler might need.

### ***"Travel insurance is too expensive."***

The cost of ExactCare is a small fraction of the total trip cost and much more reasonable than you would think.

### ***"Travel insurance is a hassle. And they never pay claims."***

BHTP is different. We've streamlined the claims process to pay claims quickly – within hours instead of weeks – and payments are made directly to a traveler's specified account.

### ***"Nothing's going to happen to me on my trip."***

Maybe nothing's going to happen to you, but there is always the "what if" situations. If something should occur while on your trip, you need to know that assistance will be there and your investment is protected no matter the outcome!
